LOCAL TEST FIXTURE - NOT A LEGAL CONTRACT

This file exists so that the supplier onboarding contract step can be built
and verified end to end without inventing commercial terms. It deliberately
contains no contract clauses and must not be used for signature.

Template version: 2026-10-06-test-v1
Marking: LOCAL_TEST_CONTRACT_FIXTURE
Source: TEST (no production contract template was available)

In production this asset is replaced by the approved GO partner agreement.
Until then the platform records, in the release evidence:
